SUBJECT: **Columbia Gas Resumes Sunset Boulevard Project in Steubenville  
Continuing Work**

---

(Steubenville) – Columbia Gas will begin the final phase of a \$3.5 million project this week along Sunset Boulevard in Steubenville.

Columbia Gas of Ohio crews will install new gas mains and customer service lines along Sunset Boulevard from Linduff Avenue to Wilma Avenue, and on nearby streets including Whitehaven Boulevard, Richland Street, South Forest Avenue and Chestnut Street.

The work is expected to last throughout the summer and into September. Though no road closures are anticipated, drivers should be alert and prepared for lane reductions and slower speeds through construction areas.

Last year, customers were notified of the natural gas line replacement project through a letter, informational packet and a public meeting. Much of the construction was completed in 2014. This final phase was postponed due to inclement weather at the end of the year in 2014 and the beginning of 2015.

More information about the natural gas line replacement project is available at: <http://www.columbiagasohio.com/replacement>
