SUBJECT: Boil Water Advisory

STEUBENVILLE: A Boil Water Advisory has been issued for the following areas. Granard East Ave, Granard West Ave, Hamilton Place, Norton Place, Williams Place and anyone else who has experienced low water pressure. The Advisory will be in effect until further notice, consumers should vigorously boil, for at least one minute, any water used for drinking (including water used to make ice), cooking or oral hygiene.

This advisory has been issued as a result of a broken water main. Once the water main is replaced the Steubenville Water Department will be collecting samples in this area to be analyzed. Once sample results are satisfactory, another press release will be issued to remove the Boil Water Advisory. The City of Steubenville appreciates the cooperation and patience of the residents of the affected area.

If there are any questions, please call 740-283-6041.
