

MINUTES OF COUNCIL MEETING
May 22, 2018

The Regular Meeting of City Council was called to order at 7:30 p.m. with Mayor Barilla presiding. The meeting was opened with a prayer followed by the Pledge of Allegiance.

Present were Councilmen Villamagna, DiLoreto, Dressel, Hahn, Paul, & Petrella.

Mr. Villamagna made a motion that Mr. Timmons be excused from the meeting. Second by Mr. Paul. Roll call. All ayes. So moved declared Mayor Barilla.

Also present; City Manager Jim Mavromatis, Law Director Costa Mastros, Finance Director Dave Lewis, Wastewater Director Chuck Murphy, Parks and Recreation Director Lori Fetherolf, Fire Chief Carlo Capaldi, Engineering Director Mike Dolak, Paul Giannamore from the Herald Star, & WTOV9.

APPROVAL/CORRECTION OF MINUTES

Minutes were approved by Mrs. Hahn for May 15, 2018. Second by Mr. Petrella. Roll Call. All ayes. So moved minutes accepted declared Mayor Barilla.

PETITIONS/COMMUNICATIONS

Mayor Barilla – “Petitions and Communications Madame Clerk?”

Mrs. Haley – “Nothing this evening.”

Mayor Barilla – “Thank you Madam Clerk.”

ORDINANCES AND RESOLUTIONS

NO. 2018-41 – BY THE PLANNING COMMITTEE – 3rd reading

Messrs. Villamagna, Hahn, Petrella

AN ORDINANCE AUTHORIZING AND DESIGNATING THE CITY MANAGER AS THE LOCAL OFFICIAL WITH THE AUTHORITY TO EXECUTE THE PROJECT KNOWN AS THE EFTS LANE AND ABERDEEN ROAD DRAINAGE IMPROVEMENTS, CITY PROJECT NO. 2018-112, AND COMPLETE ALL NECESSARY FUNCTIONS THAT MAY BE REQUIRED TO COMPLETE SAID PROJECT, INCLUDING BUT NOT LIMITED TO, ENGINEERING DESIGN SERVICES, RIGHT OF WAY SERVICES INCLUDING ACQUISITION OF RIGHT OF WAY, UTILITY RELOCATION, CONSTRUCTION ADMINISTRATION/INSPECTION SERVICES, BIDDING SERVICES, ADVERTISING FOR BIDS FOR CONSTRUCTION, RE-BIDDING IF REQUIRED, ENTERING INTO A CONTRACT WITH THE LOWEST MOST QUALIFIED BIDDER AND AUTHORIZING PAYMENT THEREFORE.

Mayor Barilla – “You have heard the third and final reading of Ordinance 2018-41. Is there anyone wishing to speak on it please come forward and state your name and address?” Mr. Villamagna called question. Roll Call. Five ayes. One no. Ordinance No. 2018-41 duly adopted declared Mayor Barilla. “The effective date of this ordinance will be June 21, 2018.”

NO. 2018-43 – BY THE PLANNING COMMITTEE – 1st Reading

Messrs. Villamagna, Hahn, Petrella

AN ORDINANCE DECLARING THE BUILDING AND STRUCTURE IDENTIFIED IN THE FOLLOWING SECTIONS OF THIS ORDINANCE TO BE AN UNSAFE STRUCTURE AS DEFINED BY SECTION 108 OF THE PROPERTY MAINTENANCE CODE OF THE CITY OF STEUBENVILLE, OHIO AND DECLARING SUCH TO BE A PUBLIC NUISANCE, AND ORDERING THE REMOVAL OR DEMOLITION OF SUCH UNSAFE STRUCTURE.

REPORT OF COMMITTEES

Mr. Villamagna – “Mayor I don’t have a committee report I just have a couple questions to ask. Dave I never got the papers you were supposed to get me for the funds for the money.”

Dave Lewis – “They’ve been given to the City Manager (all inaudible) but there (inaudible).”

Mr. Mavromatis – “You can take a look at these and then we can discuss.”

Mr. Villamagna – “These are the accounts?”

Dave Lewis – “(All inaudible)”

Mr. Villamagna – “Thank you. And the next thing is I guess; this damage that was done on this property on Marion Place; if we damage property; if we go on someone’s property for a right of way and we tear up their property; we fix it; correct?”

Mr. Mavromatis – “That’s correct.”

Mr. Villamagna – “So this has been going on since December there and I get the insurance part because that’s how government is done you got to go through the insurance company I wasn’t told that in the beginning though I was told to have them get a hold of somebody to do; but regardless of the outcome of the insurance; if his insurance doesn’t cover it; and correct me if I’m wrong; if his insurance covers it then we pay the deductible; his deductible for the damage; is that…”

Mr. Mastros – “I think that’s one scenery that could occur but although I think we do turn ours in to our insurance company that’s a coverable claim but I think they pay out.”

Mr. Villamagna – “They…”

Mr. Mastros – “And then the two insurance companies that talk.”

Mr. Villamagna – “Either way. So this gentleman that has this damage he’s 90 years old and he’s concerned about the property; can’t we have that fixed and then; cause we’re going to get it fixed no matter how we look at it; if his insurance pays for it or ours insurance pays for it one way or the other it’s going to be fixed. Can we okay this to be fixed? This has been going on since December; it’s Memorial Day and it’s still not corrected and I don’t know; the City; I think the City has an obligation to the citizens to try; if that was; if we like I said if we went on that property to fix a water line and we destroyed it we would fix it and we destroyed the property; I don’t mean destroyed; we damaged the property you know and it would bother me but I’m 30 years younger than him and it’s really bothering him. Is there a way that we can just have it fixed and then the insurance companies can…?”

Mr. Mastros – “I don’t know the answer to that question myself I could look into that.”

Mr. Villamagna – “Would you please?”

Mr. Mastros – “Yes.”

Mr. Villamagna – “Thank you very much that’s all I had tonight.”

Mr. DiLoreto – No report

Mr. Dressel – “Yes a brief thing. We would like to call a Utility Committee meeting; I’m guessing we’re going to have a Finance Committee meeting maybe next week.”

Mr. Paul – “Yeah.”

Mr. Dressel – “So then we’ll do this on June 5th at 6:30 and we’re going to cover two things. First thing is discussing and coming up with a mythology pricing and policy for picking up extra items; every other city on earth in Ohio that picks up trash has this; we’re the only one that doesn’t have it in writing yet so I guess we need to do it and that will be part of the garbage and refuse ordinance revisions that Costa wants to review as well. So for just to be clear for example when someone has a branch or a couch or I don’t know something weird; a big box; I don’t know that can’t go in the container we need a way that they can call and get that picked up; we just haven’t finalized that obviously we need to get that done so we’ll figure that out and get it done. And then; I don’t think those two things are going to take a whole hour necessarily but I thought maybe if there’s any more discussion that we had to have around the sewer/water infrastructure rebuilding we could discuss whatever else; either Finance or Chuck would like to bring up or even just the status on how things are going.”

Chuck Murphy – “I can get (all inaudible).”

Mr. Dressel – “Okay thank you. And I approved that with Yonk before I brought it up.”

Mrs. Hahn – “A couple of different things. We had 3 fires on Belleview; LaBelle neighborhood Friday night apparently all 3 were set; these were all vacant properties and I wanted to ask the Fire Chief how many would you say because I know there were several fires up on Lincoln; like in the last month how many of those were vacant structures?”

Mr. DiLoreto – “Probably all of them.”

Carlo Capaldi – “I believe all of them on Lincoln were vacant so that would be 6; we had 3 on Lincoln and 3 on LaBelle.”

Mrs. Hahn – “And then; we finally have the; it almost completely cleaned up thanks to Steve Vukilic in getting the debris from a July fire last year and two door down had a fire a week ago; was that vacant also?”

Carlo Capaldi – “Is that the one on Oak Grove?”

Mrs. Hahn – “It was on Oak Grove.”

Carlo Capaldi – “There was one on Oak Grove that was occupied I think it was 2-3 weeks ago.”

Mrs. Hahn – “The one of Wellesley was occupied; it was a vacant property but they were letting someone rent there.”

Carlo Capaldi – “Right. The one on Oak Grove was occupied.”

Mrs. Hahn – “It was (inaudible)”

Carlo Capaldi – “It was on…”

Mrs. Hahn – “its two doors down from…”

Carlo Capaldi – “It was on the south side of Oak Grove and it was occupied. There was an apartment building on Wellesley that was vacant but it was actually; I wouldn’t say it was abandon it was an apartment building.”

Mrs. Hahn – “Okay”

Carlo Capaldi – “90% of them are vacant.”

Mrs. Hahn – “Okay so here’s the question. I believe that we really have to address this. We have a thousand vacant properties in the City of Steubenville; Council passed a law before I was on that said you have to pay

\$200.00 for the first year; \$50.00 more for each year for vacant properties why? Because the Police have to go by because it is more of a risk for a fire and if a fire burns it most insurance companies will not insure a vacant property so it's a total loss and it's putting good people at risk; people who have decided to stay here and live here and people that live next to vacant properties are very very concerned that this person if we don't catch him soon is; or her; it's going to start taking a toll on life. So this is a safety concern; this is a health concern and I believe we need to act now a group of us gave the information to Chris Petrossi; the best information we could glean from the Auditor's Office to try to save time for the people in his office and I do think he thought it would save them time; but because the Judge only hears one hour a month on all code enforcement including vacant property that people aren't paying; we have a complete bottle neck and so I want us to think about you know could we; should we take some of the CDBG funds that we are currently using and pay a part-time Judge; maybe hire a retired Judge for an evening a week that he could hear these cases or even during the day that these cases could be heard. People have to know that there's some kind (inaudible) behind it; it's not been enforced so the people who now have had a vacant property for 3 full years should be paying \$350 or \$400; \$350 I think this year and yet we're still only asking for \$200; now some of the people live out of state but some of them live in Weirton; why are we not going to Weirton? Why are we not knocking on the door and saying you own property in Steubenville and that's great but you still have an obligation to take care of this property. We just have got to find the solution and I'm not saying that we put criminal cases on hold and I think right now Judge Mascio feels like there are so many cases he's got to keep the; he's got to keep it on the criminal cases but is he the only Judge that can hear this? Is there a Common Pleas Judge that could hear this? Is there a retired Judge that would be willing to hear this? Anyway so I really believe this is (inaudible) do you? I see you nodding. Yeah the Chief agrees so for the wellbeing of our people I really think and that's (all inaudible). Okay under Parks and Recreation; Costa can you tell me where we are in the process of getting the letter drafted."

Mr. Mastros – "For?"

Mrs. Hahn – "This is for the property being donated to the City if so we got to get."

Mr. Mastros – "Sure the agreement is drafted; the ordinance is drafted; a memo to you all is drafted; Mr. Villamagna is going to get me the contact information for the owner; updated contact information for the owner so that; that letter will go out this week and you guys will have drafts of it either this week or Saturday."

Mrs. Hahn – "Perfect. Perfect thank you."

Mr. Mastros – "You're welcome."

Mrs. Hahn – "I also want to ask about the wall because now we're less than two weeks out from what we hope could be the opening of the pool and where are we on the retaining wall?"

Lori Fetherolf – "So I had somebody come out and look at it. His recommendation is because the wall was built to code when it was built years and years ago but we've got a hillside; the wall should be built into the hillside not straight up he said which is why the hill is pushing it all over. His recommendation to me was it's a 3-4 week project to get it done right; his recommendation was that we rent some temporary fencing which would look better than caution tape looking like a construction area; he said he'll get it on his schedule because of the spring weather he said everybody in this type of job is so far behind because he couldn't even get to us until July; so I have no problem with that I think the fencing will look better than what we had last year; he said yes it's ready to fall over anytime; the bricks are not attached to each other and so when he installs it he'll go up into the hill and will be attached so he said it will not fall over like this anymore. I actually got an estimate for the entire; that entire area because he said this is falling down; that's going to fall later so to be fixed correctly and I am; have been playing phone tag with him for the cost but that is what I would go with; would be to just put the temporary fence up now; I can move it a little bit so there's more green space that people can be on but that was his recommendation to replace the entire wall and the railing that goes up around."

Mrs. Hahn – "Now can he do that in the summer when the pool has water in it or do we now have to wait until the fall?"

Lori Fetherolf – "He wants to wait; he said to wait till fall; until we close cause he said he can't do it with you know; because he'll have to get big; he'll have to get construction stuff in there to do that."

Mr. Paul – "Yes. That's the wall behind the old sliding board right?"

Lori Fetherolf – "Correct."

Mr. Paul – "That's probably about; I'll say 5 feet."

Lori Fetherolf – "Yeah."

Mr. Paul – "A little higher."

Lori Fetherolf – "Right."

Mr. Paul – "At least get the wall down a couple feet; take the old block down."

Lori Fetherolf – "Yes we should've taken that down (all inaudible)."

Mr. Paul – "Okay so if it would fall; it's going to fall (inaudible) it's not going to fall on some child that might be wondering over that way; that's all I'm asking."

Lori Fetherolf – "Yes."

Mr. Paul – "I mean I understand and I agree with you it needs to be stepped back (inaudible)."

Lori Fetherolf – "And the way he had the fence was we could have some of that area open too; so he said not that you push the fence up against that but (inaudible) because I want that area for people to kind of"

Mr. Paul – "Yeah."

Lori Fetherolf – "Chairs and so we can still put the fence around that area kind of that way so you can still sit down."

Mr. Paul – "The wall is leaning this way correct? Towards the pool?"

Lori Fetherolf – "They are; both of the walls are leaning; yeah (all inaudible)."

Mr. Paul – “So we can cut just a couple layers down?”

Lori Fetherolf – “Uh huh.”

Mr. Paul – “And that way if it would fall it’s not going to fall...”

Lori Fetherolf – “We can do a couple layers because the ground is probably this far below the top of the...”

Mr. Paul – “Okay; okay.”

Lori Fetherolf – “(All inaudible) pushing it over and he said he takes the wall off; he’s afraid if he does when the pool is open that hill is going to come with it so he wants to make sure there’s nobody in the area.”

Mr. DiLoreto – “(Inaudible) I feel for you. I’ve got 40 houses in my ward that are empty; fire burned; the clerk here tracked them all down on Lincoln Ave. from the Library on down; half of them are dead; other half are owned by the State of Ohio; how are you going to go up to them people when they aren’t even here; some of them (inaudible) banks; you got 999 numbers on there 888; I got a house I can sell them for whoever wants to buy it; I can’t find the owner; it’s owned by a bank down in California some place. I’m frustrated too and I feel sorry for the firemen that go out there; I’d like to see the guy that; I shouldn’t say that I might get in trouble; but I don’t know what the answer is but the ones we do have some landlords in Weirton we know who they are that’s who they should go after; the ones that are dead and the 100 abandoned you got two chances slim to none unless you can find; bring them out of the grave.”

Mrs. Hahn – “Well I actually drove down to Columbus and I met with Senator Hoagland’s staff and I went through a list of questions; they’re willing to research it. I said what...”

Mr. DiLoreto – “What do they do when the property says State of Ohio? I can’t...”

Mrs. Hahn – “They said they don’t really own it; it’s just they put their name on it I believe to stop the taxes from being due; from accumulating.”

Mr. DiLoreto – “Well I went to get my petition signed I couldn’t find anyone to sign it.”

Mrs. Hahn – “As soon as I hear back from them I’ll let Bob know to see if we can put this on the agenda and we’re not the only community.”

Mr. DiLoreto – “No I know it. I know but it’s frustrating.”

Mrs. Hahn – “(All inaudible because Mr. DiLoreto was speaking when Mrs. Hahn was.) So they need to solve it for the State not just for us but in all the 50 States we’re in the top 3 or 4 of the most homes in foreclosure still.”

Mr. DiLoreto – “I believe it.”

Mrs. Hahn – “And somewhere out in this zombie land of nobody owns it; nobody has responsibility.”

Mr. DiLoreto – “The banks take it and they don’t take the title and the banks are either in California or Texas or Mexico.”

Mrs. Hahn – “(Inaudible) putting with that; a group of us are going to go to Canton on Thursday and meet with the Habitat for Humanity people up there; we’re part of their region now in Eastern Ohio and so hopefully they give us some good information and that we’re hoping in early August to hold a nature meeting; possibly at JCC to have them share what can happen here and see if we can possibly have one home in every ward so initially going for 6 homes that we could rehab and then we’ll see where we go after that. Thank you.”

Mr. Paul – “Yes Mayor. Good evening Mayor how are you?”

Mayor Barilla – “Good.”

Mr. Paul – “Yes; I would like to call a Finance Committee meeting for next; 29th my wife’s birthday; the 29th at 6:30 next Tuesday and Mr. Lewis will update us on the April finances; which looked pretty good to me. And also I would like to congratulate Mr. Lewis and his staff (inaudible) I seen your pretty face on TV today receiving the award from 2016 which we were held back is that how it went?”

Mr. Mavromatis – “I’m going to talk about this.”

Mr. Paul – “Okay well I just wanted to congratulate you and I won’t elaborate any further. Okay I’m done Mayor.”

Mr. Petrella – No report

REPORT OF ADMINISTRATIVE OFFICERS

Mr. Mavromatis – “Thank you Mayor. We recognized 3 of our officers a few weeks ago they were submitted to the American Red Cross here and they accepted; they were given an award by the American Red Cross and that will be on June 14, 2018 in Girard, Ohio. I’m giving this to the Chief for our officers to attend down there to accept that award by the Red Cross. Last night with Mr. Petrella we met with the Hilltop CDC about garbage issues; one of the things that they brought up was the type of cans they have there are not compatible with the City’s equipment of what we pick up now and one of the request that they had was could they get our City garbage cans; that is an option that we’re going to look at cause one our vehicles now can pick them up much easier than trying to pick up whatever is put in those blue cans; they also furnished me with locations and Pleasant Heights there are approximately 14 locations that they have these blue cans set up and then LaBelle there’s 15 so again we have the specific locations where they’re at and we need to talk about the possibility of different cans and this is something that I’ve been discussing with Mr. Baird. I’m requesting next week that we go into executive session this is in regards to the Police contract; it was accrued by their union last Friday I believe and we just need to discuss it with Council if there are any issues there.”

Mr. Paul – “Tonight?”

Mr. Mavromatis – “Next week. That’s next week. I will have tonight; Chuck Murphy he’s going to address Council and give you a little incite of where we’re at on our loan application and it’s positive news but there’s a lot hoops that we still have to jump through to make this happen and lastly; what you brought up Mr. Paul; there were some issues and again a lot of people do not understand; there are over 6,000 audits that are done every

year in the State of Ohio and less than 5% get this type of award and we were one of them but unfortunately it was held in debates; there were things that came up that were not cleared by their office so that was part of my meeting when I went down there 2 weeks ago to talk to Mr. Bob Hinkle who is the number 2 in the State Auditor's office and is responsible for all of these audits and he got back to me; he rectified what the issues were and they were from his office not ours; everything was fine in 16 with (inaudible) there so again he put his time and effort into it along with his people; as well as Mr. Yost and it got rectified; and he asked to come up here and make the presentation which we set up for this morning and he came up this morning; made the presentation to Mr. Lewis and his staff; so again for 2016 the City of Steubenville has received the Ohio Auditor of State Award with sanction this is the third year in a row so this is a credit to Mr. Lewis, his staff, and all of us; to my department heads paying attention to what we need to be doing when it comes to the financial matter so Dave at this time I would like for you to come up so I can give you this award. Dave thanks to (inaudible) and your staff okay? It's (inaudible) deserved and you got it. All right so thank you."

Dave Lewis – "Thank you. I appreciate it thank you."

Mr. Dressel – "Thank you Dave."

Mr. Paul – "Thank you Dave for all your hard work."

Dave Lewis – "There's a lot of work from everybody; putting team effort went into this; obtaining such a high level. There's really two qualifications (all inaudible) qualifications there are several but the two main ones are we have to file the comprehensive annual financial report which means we take things beyond the levels of just basic financial statements. Your basic financial statements are roughly 80 pages and a comprehensive report is about 290 pages so we file at the highest level possible; there's a lot of information that goes into this report for the public to look at. The other is the clean audit and as Jim was saying the clean audit everything; it wasn't even one problem actually sometimes they'll give you recommendations; they didn't even have a recommendation they were very pleased (inaudible) that being the auditors; the auditors were very pleased on how we're doing things so the award with distinction basically says that you're an example of how to keep public records and that's why we received the award."

Mr. Paul – "Thank you Dave I appreciate you and your staff (inaudible)."

Mr. Mavromatis – "That's all I have Mayor."

Mr. Villamagna – "Jim can you set up a meeting next week and we can talk about this?"

Mr. Mavromatis – "What I just gave you?"

Mr. Villamagna – "Yeah."

Mr. Mavromatis – "Yes no problem."

Mr. Villamagna – "At your convenience any day except Monday."

Mr. Mavromatis – "Okay."

Mr. Mastro – No report

MISCELLANEOUS REPORTS

PUBLIC FORUM

Mayor Barilla – "We don't have anyone signing in under Public Forum this evening."

Mr. Mavromatis – "I asked Mr. Murphy to speak."

Mayor Barilla – "Okay."

Chuck Murphy – "Everyone here; the Council members have in front of them an e-mail that I received yesterday in regards to our WSRLA our loan (inaudible) application for the valve (inaudible) project for the City. And basically in here they are telling us that we have gotten 50% principal forgiveness; the remainder which would be three and a half million dollars which means 3 ½ million dollars of principal forgiveness and the remainder is 0% for 30 years (inaudible) 3 ½ million dollars. Now thing is; is this; I want to make very clear just means that we're in the pipe line; we still have obligations that we have to meet in order to go ahead and actually truly guard those funds; so we have to move along as quickly as possible and it has to be done well and right. To that end one of the things that's in here is basically second paragraph says please note that the principle forgiveness money is not guaranteed for the entire fiscal year. Their fiscal year will (inaudible) July 1st this year to June 30th of next. A certain amount has been aliquoted for the entire state and when it is gone, it is gone. I therefore highly recommend that you work to complete the following program requirements as soon as possible to ensure this financing is secured and we've been working diligently every single day; us; our own staff as well as the (inaudible) in terms of going ahead and trying to keep things on course and really as quickly as possible done right. That said here's the fun part for Council I'll leave the rest of that for you to go ahead and review because it's just dealing with; you know things that the engineering (inaudible) and I have to go head and handle our staff but you'll notice it's circled on the second page and what it comes down to is; is Council has a requirement in it of itself as far as things go and this program has a training prerequisite for water systems that obtain principle forgiveness; which we have; for the drinking water alone specifically a minimal of 50% of the Council members or government board members for the water system must complete the following Rural Communities Assistance Program courses prior to loan award and you have to go ahead and complete the two courses listed there 101 Utility Management for Local Officials and 201 Financial Management for Local Officials. All courses are offered free of charge and are

available online or in a classroom setting; I did check online for the convenience of Council basically there is no (inaudible) classes available that you could actually physically go to; the only alternative with this juncture is therefore the online version; for the sake of again trying (inaudible) information for Council I went on the system and basically saw how things needed to go ahead and transpire. In essence they give you (inaudible) after you have created your login and all of that you'll then be able to access in and it basically (inaudible) towards the bottom of the page and you'll find the reference courses and then you can say this is for dealing with the principle forgiveness aspects (all inaudible) so forth and so on. In that you would then have to go ahead and actually read what they have in there and they'll even have a video on one part; a little video presentation and then there is actually a question at the end you then have to answer based on what you did and you have to get according to the information in there a 100% on the thing. Now that sounds very very odd but what it comes down to is you can reference back and forth a little bit; that thing is as far as things are concerned to be able to go ahead and get your way through it says it's not overly complicated from what I saw. Any questions?"

Mr. Dressel – "When would you like us to be done doing this?"

Chuck Murphy – "As soon as possible."

Unknown – "If this is it right here? I mean I can try it; (inaudible) right here."

Chuck Murphy – "What I'm going to do is I'm going to ask you for the actually e-mail (all inaudible)."

Mr. Dressel – "(All inaudible)"

Chuck Murphy – "Right and then that way all you have to do is maybe click on the list cause those websites that you're seeing there; they're active links you can click on and it will take you right to it that's what I got from it."

Mr. DiLoreto – "Hey Chuck"

Chuck Murphy – "Then as far."

Mr. DiLoreto – "I'm not going to learn. I don't have a computer."

Chuck Murphy – "Yep I was already thinking of you sir."

Mr. DiLoreto – "Good."

Chuck Murphy – "On that end worse case; what we can do is go ahead and ask you to have you come into City Hall we can set you up with a computer."

Mr. DiLoreto – "No problem I'll go to class."

Chuck Murphy – "We'll go from there."

Mr. DiLoreto – "I'll go to class."

Chuck Murphy – "In the same; for any of the other council members if you need assistance in the matter by all means feel free to contact me; we can go ahead and actually set up a computer and basically go ahead and actually walk you through get you started and then go from there."

Mr. Villamagna – "All council members don't have to go too because..."

Chuck Murphy – "You have to have at least 50%."

Mr. Villamagna – "So I mean if Yonk..."

Mr. DiLoreto – "I'll go if you want me; if you need me I'll go."

Chuck Murphy – "Like I said the thing is I'm advising in all honesty that I want you to do it because I did find that there are (inaudible)."

Mr. DiLoreto – "I want to go."

Chuck Murphy – "Valuable information getting into ethics laws as well as you know the dealing with the finances (inaudible) there's quite a bit in there that you can work through to be beneficial."

Mrs. Hahn – "Thank you."

Mayor Barilla – "Thank you Mr. Murphy."

Mr. DiLoreto – "Thank you Chuck."

Mrs. Hahn – "Yes congratulations."

Mr. Paul moved to adjourn. Second by Mr. Villamagna. Roll call. All ayes. So moved; meeting adjourned declared Mayor Barilla.
