FROM: Michael Dolak, City Engineer

DATE: August 1, 2018

SUBJECT: **2018 City Street Resurfacing Improvement \_ Continue Work**

STEUBENVILLE – The City of Steubenville will continue the 2018 City Street Hot-Mix Asphalt Resurfacing Program starting on Friday, August 3, 2018 at 7:00 A.M. and on Saturday, August 4, 2018 then resuming work on Monday, August 6, 2018; weather permitting. The initial work will involve the removal of the existing asphalt surface using a cold milling process and then placing an asphalt intermediate course.

Traffic will be maintained, however motorists are advised to use alternate routes to avoid delays. After preparation, a new hot-mix asphalt surface will be placed a few weeks later.

The Project Streets will be posted "NO PARKING" at least one day in advance. If vehicles are left on the street, vehicles will be towed and owners will be responsible for towing and storage fees. We apologize for any inconvenience.

The Project Streets for this phase of the project are as follows:

Marian Place from Efts Lane to East Terminus  
East Half of Laurretta Drive from John Scott Hwy to Garfield Avenue

Your anticipated patience and cooperation is greatly appreciated during construction. If you have any questions or concerns please contact Mr. Michael F. Dolak, City Engineer at (740) 283-6000 Ext. 3303

The City has contracted with Shelly & Sands, Inc. of Rayland, Ohio to do this project and is funded using the 0.7% City Income Tax Revenue and the Ohio Public Works Commission Funds.
