DATE: June 14, 2019

SUBJECT: Valve Replacement

---

**STEUBENVILLE** – On June 14, 2019 Contractors have one more main line valve to replace. Areas that will be affected due to this replacement are as follows: Hill Avenue, Spring Ave, Mears Avenue, Terrace Avenue, Main Street, and the 800 block of South Street. A Boil Advisory will be issued for the areas that experience water loss upon completion of this work.

Due to the complexity of the Valve replacement Project all residents in these areas may experience Water Quality Issues such as Loss of Water, Low Pressure, and/or Water Discoloration. If you experience any of these conditions residents are asked to call the Water Filtration Plant at 740-283-6041.

We thank the residents of Steubenville for their patience and understanding throughout this very important project as we work to improve our Water System.  
Motorists are advised to allow extra time for their travels in these areas.
