SUBJECT: Valve Replacement Project – Pleasant Heights

STEUBENVILLE – Thursday evening September 26, 2019 starting at 8pm and continuing until completed the water department and contractors will be working in portions of the Pleasant Heights Hilltop. Streets to be affected are Park Street, Pine Street, Elk Street, Jefferson Street, Claire Street, Maple Place, and Oakmont Avenue. This work is needed to replace 4-6inch water main valve that are inoperable. This work is part of the Phase I and Phase II Valve and Waterline Replacement Project.

Due to the complexity of the Valve Replacement Project all residents in these areas may experience water quality issues such as Loss of Water, Low Water Pressure, or Water Discoloration. If you experience any of these conditions residents are asked to report the condition to the Water Filtration Plant at 740-283-6041.

We thank the residents of Steubenville for their patience and understanding throughout this very important project as we work to improve our Water System.
