DATE: November 1, 2019

SUBJECT: Valve and Line Replacement Phase II, Efts Lane

STEUBENVILLE – Monday November 4, 2019 Contractors will resume the Phase II Valve Replacement and Line Replacement Project with the replacement of the main water line on Efts Lane. This portion of the project is expected to last through January 2020.

Due to the complexity of the Valve and Line replacement project all residents in this area may experience Water Quality Issues such as Loss of Water, Low Pressure, and/or Water Discoloration. If you experience any of these conditions residents are asked to call the Water Filtration Plant at 740-283-6041.

We thank the residents of Steubenville for their patience and understanding throughout this very important project as we work to improve our Water System.

Motorists and residents that travel Efts Lane are advised to use extreme caution with in the work zones. Please allow extra travel time as delays are expected throughout the project.
