DATE: June 2, 2020

SUBJECT: Hydrant Flow and pressure testing

STEUBENVILLE – On June 3, 2020 Arcadis engineering and city employees will be conducting hydrant flow and pressure testing. The testing will be conducted between 7am and 4pm in the following areas:

Braybarton Blvd Area

N. 4th Street/Ross Street

Broadway Blvd Area

Aberdeen Road

Scioto Drive – Country Club Manor Area

Residents in these areas may experience water Quality Issues such as Loss of Water, Low Pressure, and Water Discoloration. If you experience any of these conditions Residents are asked to call the Water Filtration Plant at 740-283-6041. If water discoloration should happen residents should run the cold water only through faucets or wash tubs to clear the discoloration from their service line. We ask that residents if possible withhold from washing white clothes and running hot water during the hours of testing.

We thank the residents of Steubenville for their patience and understanding throughout this very important project as we work to improve our Water System. Motorists are advised to allow extra time for their travels.
