FOR IMMEDIATE RELEASE

FROM: Michael Dolak, City Engineer
DATE: March 5, 2021
SUBJECT: **Lovers Lane Widening**

Upcoming Project Information JEF-Lovers Lane (PID 109308)

The City of Steubenville has proposed a project to improve 0.35-miles of Lover's Lane from Princeton Avenue to Fort Steuben Drive in the City of Steubenville. Improvements include through lane widening to 12-feet, installation of new sidewalks, curb, curb ramps, and various storm sewer improvements. The storm sewer improvements will be constructed on portions of East Carlton Road and Teresa Drive as well as Lovers Lane. Minor new permanent and temporary right of way will be required for this project. The attached Figure depicts the proposed project area. The project is necessary to improve substandard roadway which cannot efficiently handle current and projected traffic volumes, widen narrow lanes and enlarge tight turning radii while addressing sensitive residential concerns. The project will also provide sidewalks on the west side of Lovers Lane to facilitate pedestrian traffic. Construction is currently scheduled to begin after March 1, 2024 and acquisition is expected to begin November 1, 2021.

We welcome your questions and comments. Issues you may wish to comment on include, but are not limited to, the effect of the project on local residents, air quality, the local economy, floodplains, and historic or cultural resources. Comments are requested by April 14, 2021 to ensure your comments may be considered during project development.

Please be aware that, at this stage in project development, it will not be possible to provide you with specific information regarding potential real estate acquisition. If right-of-way acquisition is necessary from your property, a representative working for the City of Steubenville will contact you directly at a later date to discuss the right-of-way needs, the acquisition process, and your rights under that process.

Questions or comments? Please contact Michael Dolak, P.E., City of Steubenville, City Engineer at:
