SUBJECT: Lawson Avenue/Orchard Street Waterline Replacement Project

STEUBENVILLE –Monday May 3, 2021 City Contractors will continue a main waterline replacement project on Lawson Avenue at the intersection of Orchard Street. This work will encompass the replacement of a 12 inch water line on Lawson Avenue at the intersection of Orchard Street. Orchard Street will be closed to thru traffic from Union Avenue to Lawson Avenue for the duration of this work. There will be lane restrictions, temporary closures, and traffic control devices used during this work. Motorist are cautioned to find an alternative route and use extreme caution when driving in the work zones. Work is expected to last 2 weeks on this part of the line replacement.

Due to the complexity of this work all residents in these areas may experience water quality issues such as Loss of Water, Low Water Pressure, or Water Discoloration. If you experience any of these conditions residents are asked to report the condition to the Water Filtration Plant at 740-283-6041.

We thank the residents of Steubenville for their patience and understanding throughout this very important project as we work to improve our Water System.
